Teen Playspace

With the 'birds nest' basket seat the **CANTILEVER** can be used by 3 to 4 kids at once and allows a wide arc to be achieved during play. You can be sure of a big demand for this giant swing.

THE CONE CLIMBER provides endless opportunities for climbing and play whilst the inherent movement within the structure adds a further dimension to play.

The **AERIAL RUNWAY** is probably one of the most popular and exciting items produced for the play area. It is designed to cater for children between the ages of 6 to 14.

The **BMX TRACK** contains a mixture of singles, doubles, pumps, berms and tabletops to allow for kids of all abilities to use. Challenging enough for competent riders, rollable for beginners. This centre piece will offer a great place for teens to hang out and socialise.

The **NORWELL CROSS** is a comfortable way of developing leg and hip muscles whilst improving cardiovascular endurance. The **NORWELL JUNIOR RIDER** uses the child's own body weight for resistance in developing strength in the arms, shoulders, abdomen, and legs.
